PROFESSIONAL SUMMARY

Mechanical Engineer with an MSc in Project Management and 5+ years of combined experience delivering industrial construction, manufacturing, and CAPEX projects across the UK and India. Currently supporting planning and project controls on PepsiCo's £150M Greenfield Beverage Manufacturing Facility using Primavera P6, having achieved 98% milestone compliance on delivered work packages. Previously delivered £3M+ in CAPEX sterilization plant projects in the UK as Technical Project Manager, reducing reporting turnaround time by 40% through structured project controls. Recognised for strong stakeholder management, structured problem-solving, and delivering measurable programme performance improvements.

KEY ACHIEVEMENTS

- Supporting delivery of PepsiCo's £150M Greenfield Beverage Manufacturing Facility; developed 3-tier (L1–L3) schedules across 30+ work packages, achieving 98% milestone compliance over 5 months.
- Delivered £3M+ CAPEX across 2+ sterilization plant projects in the UK as Technical Project Manager at Revolution-ZERO.
- Coordinated planning across 6 engineering disciplines, 25 project team members, and 15 contractors/subcontractors.
- Reduced workfront conflicts by 30% through daily/weekly lookaheads with 20+ subcontractor teams; identified 15+ float risks and escalated 4 critical delays, recovering ~3 weeks of potential slippage.
- Reduced report generation time by 40% via standardised KPI dashboards; managed document control for 300+ drawings/submittals with 100% revision traceability and zero approval delays.
- Recommended ERP improvements at Gray Fox Consulting projected to deliver \$100,000 in annual savings, a 10% efficiency improvement, and a 15% shorter implementation timeline; reduced identified project risks by 30%.
- Achieved a 95% issue resolution rate supporting a large-scale email migration at NHS Business Services Authority.

CORE EXPERTISE

Project Delivery

Project Management • Project Planning • Project Controls • Primavera P6 • Microsoft Project • CPM • WBS • Baseline Scheduling • Look-Ahead Planning • Schedule Recovery • Delay Analysis • Risk Management • Stakeholder Management • Document & Change Control • KPI Reporting

Engineering

Mechanical Engineering • Industrial Construction • Manufacturing • CAPEX Projects • Utilities • Commissioning • Contractor Coordination

Software

Primavera P6 • Microsoft Project • AutoCAD • SolidWorks • Autodesk Inventor • Creo (Pro/ENGINEER) • ANSYS • Mastercam • Excel • PowerPoint • Jira • Asana • Monday.com • Trello

PROFESSIONAL EXPERIENCE

Project Planner / Planning Engineer

Facilities And Building Solutions (FABS) – Client: PepsiCo India Holdings Pvt. Ltd.

October 2025 – Present | Pune, India

- Supporting planning and project controls for a major PepsiCo beverage manufacturing facility (£150M), coordinating engineering, procurement, construction, utilities, and commissioning activities within a live production environment.
- Develop and maintain 3-tier schedules (L1–L3) across 30+ work packages, achieving 98% milestone compliance over 5 months.
- Coordinate daily/weekly lookaheads with 20+ subcontractor teams, reducing workfront conflicts by 30%.
- Track progress against baseline; identified 15+ float risks and escalated 4 critical delays, enabling recovery actions that saved ~3 weeks of potential slippage.

- Prepare daily, weekly, and monthly progress reports for leadership and client reviews; reduced report generation time by 40% via standardized dashboards.
- Implemented a progress measurement system covering 200+ activities, improving schedule variance tracking to within $\pm 5\%$.
- Managed document control for 300+ drawings/submittals; achieved 100% revision traceability and zero approval delays over 6 months.

Technical Project Manager

Revolution-ZERO

November 2024 – May 2025 | Four Marks, Hampshire, UK

- Led end-to-end delivery of 2+ large-scale sterilization plant projects across the UK, overseeing a combined CAPEX value of £3M+.
- Managed project scope, schedules, resources, budgets, technical coordination, and delivery milestones.
- Worked cross-functionally with engineering, site teams, quality, sales, suppliers, and operational stakeholders.
- Established and monitored KPIs, project reporting structures, and risk registers, improving visibility and decision-making.
- Used AutoCAD to create, review, and update 2D technical drawings, including layouts, fabrication plans, and as-built documentation.

Project Manager – ERP Implementation

Gray Fox Consulting

August 2022 – February 2023 | Newcastle upon Tyne, UK

- Led analysis of business processes and operational workflows to identify digital improvement opportunities through ERP implementation.
- Delivered recommendations contributing to a 10% efficiency improvement and projected annual savings of \$100,000.
- Conducted structured risk analysis and developed mitigation strategies that reduced identified project risks by 30%.
- Developed an implementation roadmap that shortened projected project timelines by 15%.

IT Service Desk Analyst

NHS Business Services Authority

April 2023 – June 2023 | Newcastle upon Tyne, UK

- Provided technical support during a large-scale email migration project, maintaining a 95% issue resolution rate.
- Supported users across enterprise systems including Azure, Exchange, Microsoft 365, and SCCM.
- Managed service desk tickets, troubleshooting, user setup, and issue resolution within a high-pressure operational environment.

Senior Student Inclusion Consultant (Part-time)

Northumbria University

February 2022 – July 2023 | Newcastle upon Tyne, UK

- Supported development and implementation of Diversity & Inclusion initiatives across university programmes and stakeholder groups.
- Contributed to institutional initiatives that helped improve student satisfaction outcomes.
- Presented at the RAISE (2022) and Jisc Change Agent Network (2023) conferences.
- Co-organised a TED Talk event at Northumbria Students' Union.

EDUCATION

Master of Science (MSc), Project Management

Northumbria University, Newcastle upon Tyne, UK | 2021–2023

- Graduated with 2:1 (Commendation) • Advanced Practice Semester with Merit
- Dissertation: AI in Risk Management Practices (Score: 65)

Bachelor of Engineering (Mechanical Engineering)

Savitribai Phule Pune University, Pune, India | 2020

- Graduated with Distinction
